

HIRANTHA RATHNAYAKA

Full Stack Software Engineer

Colombo, Sri Lanka
hiranthaviraj@gmail.com | github.com/Hirantha12 | linkedin.com/in/hirantha-rathnayaka

PROFESSIONAL SUMMARY

Full Stack Software Engineer with 4+ years of experience building production-grade web applications end to end, from responsive React.js/Next.js front ends to Node.js/Express.js and NestJS back-end services. Skilled across the stack in JavaScript, TypeScript, RESTful API design, SQL/NoSQL databases, and cloud deployment on AWS and Azure. Delivered 10+ production and freelance projects across e-commerce, consulting, and enterprise clients, including SEO-driven improvements to site performance and search visibility. Experienced in Agile/Scrum environments, cross-functional collaboration, and code reviews, with a growing focus on integrating AI-powered features into product workflows.

CORE SKILLS

Languages & Frameworks: JavaScript, TypeScript, PHP, React.js, Next.js, Node.js, Express.js, NestJS, Gatsby.js, AngularJS

Styling & UI: Tailwind CSS, Bootstrap, CSS3, HTML5

Databases: PostgreSQL, MySQL, MongoDB

Cloud & DevOps: AWS, Azure, Docker, CI/CD Pipelines

Platforms & Tools: WordPress, Git/GitHub, Jira, Redux

Practices: Agile/Scrum, RESTful API Design, On-Page SEO, UI/UX Design & Prototyping, Cross-Functional Collaboration

Emerging Tech: Contributed to AI-powered CV screening features that automatically compare candidate resumes against job descriptions and generate match scores, within a hiring management platform.

PROFESSIONAL EXPERIENCE

Software Engineer
Jun 2025 – Present

Softvil Technologies, Sri Lanka · Full-time · Western Province, Sri Lanka

- Built VivoAssist, a SaaS document-intelligence platform, including its AI-powered query dashboard with natural-language search and citation links, plus authentication and admin console using Next.js and TypeScript.
- Developed TuitionLanka, a trilingual tutoring marketplace, architecting its data layer with RTK Query and a media pipeline on Azure Blob Storage.
- Built core features for Exploreture, a recruitment platform with job seeker, employer, and admin portals, using NestJS, MongoDB, and Next.js.
- Designed Exploreture's backend using hexagonal architecture, with real-time messaging and JWT/OAuth authentication across user roles.

Freelance Software Developer — Web Development & SEO Projects
Aug 2024 – Jun 2025

Clients: Invos Global, K2 Consultants (Pvt) Ltd., GoDigital Pvt Ltd., Drill Team Westnahira, Codezela Technologies, Urban Vogue

- Delivered 10+ freelance web projects across consulting, technology, and e-commerce clients, including a rental service, retail shops, and a beauty product business.
- Carried out on-site SEO optimization across client websites, improving site performance and search visibility.
- Managed direct client communication and requirements gathering across multiple concurrent projects.

Web Developer
Nov 2023 – Aug 2024

Stalione Group (Pvt) Ltd

- Developed and delivered client websites and web applications from the ground up, handling both design implementation and functional build-out.
- Managed website development and optimization with a strong focus on SEO strategy, improving visibility and organic traffic across client sites.
- Built technically robust, search-optimized websites and web applications using React.js, Laravel, PHP, AngularJS, Gatsby.js, and WordPress.

Associate Software Engineer
Mar 2023 – Nov 2023

Explorelogy Pvt Ltd, Colombo

- Developed and deployed client websites using Gatsby, React, GraphQL, and Tailwind CSS, including Nareta, Softmatter (MAS Holdings), Watawala Plantations, Kefi, and Wyld Global.
- Integrated Shopify Storefront API for e-commerce checkout and Firebase (Firestore, Storage, Cloud Functions) for lead capture and serverless form handling.

- Contributed to Kirana, a serverless matchmaking platform on AWS (AppSync, DynamoDB, Lambda, Cognito), working on frontend integration with the GraphQL API.

Associate UI/UX Engineer *Sep 2022 – Feb 2023*
Explorelogy Pvt Ltd, Colombo

- Designed user-centered interfaces and interactive prototypes, collaborating with developers to translate wireframes into functional UI components.
- Conducted user testing and iterative design reviews that improved usability and interface consistency across client projects.

Software Engineer Intern *Feb 2022 – Aug 2022*
Explorelogy Pvt Ltd, Colombo

- Built foundational skills in UI/UX through hands-on wireframing, prototyping, and usability testing; promoted to Associate UI/UX Engineer after a successful six-month term.
- Transformed wireframes into interactive prototypes and supported early-stage front-end implementation under senior guidance.

SELECTED PROJECTS

Technologies used across projects: Gatsby.js, Next.js, React.js, NestJS, Node.js, Tailwind CSS, MongoDB, Firebase, Shopify API, WordPress

Exploreture — exploretureweb.vercel.app/
- Recruitment platform with job seeker, employer, and admin portals, built on NestJS, MongoDB, and Next.js.
